On January 7, 2021, Anthony Harrison filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*<sup>2</sup> (the “Vaccine Act”). On September 20, 2022, Petitioner filed an amended petition. Petitioner alleges that he suffered a shoulder injury related to vaccine administration (“SIRVA”) resulting from an influenza vaccine received on September 18, 2020. Amended Petition at 1. Petitioner further alleges the vaccine was administered in the United States, he experienced sequela from his injury for more than six months, and neither Petitioner, nor any other party, has received compensation in the form of an award or settlement for his

vaccine-related injury. Amended Petition at ¶¶ 1, 10, 12; Ex. 11 at 3-4; Ex. 19 at 3. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On July 14, 2023, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent's Rule 4(c) Report at 1. Specifically, Respondent agrees that Petitioner's alleged injury is consistent with SIRVA as defined by the Vaccine Injury Table, in that "petitioner had no history of pain, inflammation or dysfunction of his left shoulder prior to vaccination; pain occurred within 48 hours after receipt of an intramuscular vaccination; pain was limited to the shoulder in which the vaccine was administered; and no other condition or abnormality has been identified to explain petitioner's shoulder pain." *Id.* at 9. Respondent further agrees that the records indicate that Petitioner suffered the residual effects of his condition for more than six months and has satisfied all legal prerequisites for compensation under the Act. *Id.*

**In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.**

**IT IS SO ORDERED.**
